

# A Better World

Mitchell J. Rabin, M.A., L.AC

Host & Producer

*Creating a better world through Media and the Healing Arts*

---

The Mayan Calendar gives some very interesting indications of what's to come until December, 2012 and then drops off. Kalarhythms gives some very interesting indications of what's to come until December 2012 and beyond. Its originator, David Katzmire, while developing the understanding of Time Cycles, came to some similar conclusions the Mayans did before ever even knowing about the Mayan Calendar.

--How can understanding Time Cycles according to Kalarhythms make a difference in my personal life, my professional life, my happiness and success?

--Why does the Stock and Currency Markets fluctuate as it does and using Kalarhythms, can we predict what it will be doing next?

--Why does love sometimes diminish and sometimes flourish and how can Time Cycles help us be prepared for what's next in relationship?

--Why do wars occur when they do and with the frequency they do during certain time periods and not others?

---Can Kalarhythms help predict the coming of a New Age, where and when? Can it inform me as to where it is safest to live in times of crisis?

---In these stressful, chaotic times, how can Kalarhythms help us to guide ourselves through such rocky terrain, and how long will it last?

These are but a few of the many areas Kalarhythms can assist us in understanding the cyclical nature of the Universe itself. Based on over 25 years of research, testing and study, David Katzmire is now, for the first time, unveiling his life-long passion in public, first on A Better World Radio and TV, and at the **MetaCenter- Wednesday, July 18 at 7:30pm**. Come hear David speak about Kalarhythms publicly for the first time about this exciting and powerful way to get a real sense of the future that is rooted in the rigor of science and mathematics, yet presented in very user-friendly language.

If you are interested in gaining a greater handle on the future in formation, come hear Dave speak about the mathematics and patterns and images of Nature underlying the movement and cycles of Time.

Tune into A Better World Radio with Mitchell J. Rabin on **Monday, July 16 at 1pm** to hear Mitchell and David dialogue about Kalarhythms. To listen, go to: [www.prncomm.net](http://www.prncomm.net)

To register, go to: [www.abetterworld.net](http://www.abetterworld.net) under Events. Or, 212 420-0800.
